NFD-701: WORLD TEXTILES

SEMESTER : **VII**
Duration : 14 Weeks
Work Load
Lecture (L) : 2 hours/Week Total lecture hours per semester: 28
Tutorial (T) : 1 hour/Week Total tutorial hours per semester: 14
Practicals (P): 0 hours/Week Total lab hours per semester: 0
Credits : 3
Maximum marks : 100

Objectives:
- To create awareness and foster appreciation of textile masterpieces of the world
- To appreciate textiles of world vis-à-vis their material, color and techniques
- To study the important textile arts in their historical perspective
- To assimilate and adapt this knowledge for creating design alternatives and inspiration

Learning Outcomes:
- Understand the development of textiles in the world ranging from the ancient to the contemporary
- Be able to appreciate the evolution of masterpieces of world textiles
- Be aware of the contemporization of textiles in different parts of the world
- Be able to draw inspiration for developing designs

COURSE CONTENT

UNIT-I INTRODUCTION [6 Hours]

- Overview
- Sources of information
- Earliest findings with respect to different fibres and locations

UNIT-II WOVEN TEXTILES [12 Hours]

- Tapestries (Coptic, Medieval Europe and China)
- Carpets (Turkey, Persia and Central Asia)
- Blankets and Rugs (Native American

UNIT-III PRINTED AND WOVEN TEXTILES [8 Hours]

- Block Printing-Middle East
- Stencil Printing- African, Japanese

UNIT-IV RESIST DYED TEXTILES [8 Hours]

- Ikats- (South East Asia, Central Asia and Africa, Japan and Indonesia)
- Tie and Dye (Shibori of Japan, Adire of Nigeria)

UNIT-V EMBROIDERED TEXTILES [10 Hours]

- Different stitches and motifs (Europe, South America, china, Southeast Asia etc.)
- Folk Embroideres
- Laces
  - Pillow lace
  - Reticelle
  - Needle Point

Suggested Assignments

- Make a presentation on any one given textile and give details about its history, construction, color, design, motifs and techniques
- With reference to special design features (motifs, techniques, color and silhouette) from different world textiles develop a portfolio, for use in contemporary styles for garments giving atleast five alternate design

Suggested Visits

- Musem
- Trade fair

- Expomart
    - Exhibition

Evaluation Criteria

Internal	**Marks**
Teachers assessment (on the basis of assignment / presentation) and attendance	10 + 10
Mid-term exams	20
External	
Final University Examination	60

NFD - 702 : CONSUMER BEHAVIOR AND FASHION MARKETING

SEMESTER : **VII**
Duration : 14 Weeks
Work Load
Lecture (L) : 2 hours/Week Total lecture hours per semester: 28
Tutorial (T) : 1 hour/Week Total tutorial hours per semester: 14
Practical (P) : 0 hours/Week Total lab hours per semester: 0
Credits : 3
Maximum marks : 100

Objectives:
- To create awareness about the people in the marketplace and their behavior
- To learn and explore various fashion marketing ideas
- To become aware of various characteristics of consumer
- To understand the reasons leading to development of new products and marketing strategies

Learning Outcomes:
- Be able to appreciate the nature and model of consumer involvement
- Understand the need of studying consumer behavior and differenciate between organizational buying behavior and consumer buying behavior
- Be aware of the contemporary issues in fashion marketing
- Understand the reasons for marketing implications of consumer behavior

COURSE CONTENT

UNIT-I INTRODUCTION TO FASHION [8 Hours]
In terms of
- Concepts
- Theories
- Marketing
- Consumer Behavior
- The Creation and Diffusion of Fashion Consumer Culture

UNIT-II CONSUMER CHARACTERISTICS AND FASHION IMPLICATIONS [6 Hours]
- Individual consumer Dynamics: The Self, Motivation and values

- Demographic Subcultures: Age, Race, Ethnicity, Income and Social Class
- Psychographics: Personality, Attitudes and Lifestyle

UNIT-III FASHION COMMUNICATION AND DECISION MAKING [6 Hours]

- Fashion Communication
- Fashion consumer decision-making
- Sociological aspects of consumer behavior

UNIT-IV FASHION MARKETING RESEARCH [8 Hours]

- The fashion market: size and structure
- Marketing environment: Micro and Macro environment
- Research design and Data sources
- Role of Marketing research in new product development
- Forecasting Fashion

UNIT-V TARGET MARKETING AND MANAGING THE FASHION MARKETING MIX [8 Hours]

- Mass marketing and market segmentation
- The fashion marketing mix
- Designing and marketing fashion products
- The product mix and range planning
- Fashion and related life cycles

UNIT-VI PRICING AND PLANNING [6 Hours]

- External and internal factors influencing price decisions
- Main methods of setting prices
- Pricing strategies in relation to new products and to match the competition
- Planning process and objectives
- Marketing strategy
- The fashion marketing plan

Suggested Assignments

- Make a report (atleast three students in a group) on any one subculture of consumer studying in detail their Age, Race, Ethnicity, Income and Social Class etc.
- Make a group presentation (four students) on any Indian or International Fashion market studying in detail about their size and structure

Suggested Visits

- Local export house in near vicinity
- Trade fairs
- Fashion markets – Chandni chowk, Nehru Place, Karol Bagh etc.

Guest Lecture

- Marketing manager of any renowned brand

Evaluation Criteria

Internal	**Marks**
Teachers assessment (on the basis of assignment / presentation) and attendance	10 + 10
Mid-term exams	20
External	
Final University Examination	60

NFD-751P: CHOICE BASED ELECTIVE (ANY 2)

1. FASHION ACCESSORIES (Elective)

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives
- To learn the different aspect of fashion accessories
- To develop the techniques of accessory design and its commercial values.
- To familiarize the students with various materials used in making jewelry.

Learning Outcomes
- Be able to develop the skills of accessory illustration
- Be able to create new accessory designs
- Be able to make the design according to the garments

COURSE CONTENT

UNIT- I DESIGN INSPIRATIONS – JEWELRY [5 Hours]
- Research
- Analysis of fashion forecasting
- Understanding the basic tool kit

UNIT-II HANDLING OF DIFFERENT MATERIALS [9 Hours]
- Work with paper, fabrics, dried stuff, wood, glass, string beads etc.

UNIT-III BASIC JEWELRY TECHNIQUES [14 Hours]
- Saw piercing, drilling, filling, soldering
- Working with wire ;

Drawing, bending, cutting, spirals, forging jump rings,

chains,twisting

UNIT-IV SURVEY REPORTS [16 Hours]

- Market surveys
- Design presentations
- Final concept

UNIT-V FINISHED PRODUCTS [12Hours]

- Sample Exploration
- Introduction to various raw materials
- Sampling

Suggested Assignments

PROJECT-1

- Use different material and develop different accessory designs

PROJECT-2

- On a selected garment silhouette, and develop the accessory designs accordingly.

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Suggested Visits

- Jwellery shops/workshop

Textbooks

- Gale, E. and Little, A. Jewelry Making, McGraw-Hill Companies, 1999
- Phyllis, G. T., Encyclopedia of Fashion accessories, 2003
- Peacock, J., Fashion Accessories, Thames & Hudson, Limited, 2000

- Mizuno, K. I, Beadweaving Brilliance: Make Beautiful Jewelry as You Learn Off-Loom Techniques, Japan Publications Trading Company, 2007

- Chaisty, A., Basics Fashion Design: Fashion Jewelry, Ava Publishing SA, 2011

Evaluation Criteria

Internal	**Marks**
(Based on understanding of concept, knowledge of tools, commands, techniques, creation, ideation, image quality and presentation) (atleast 3 jury members should be there)	
Teachers assessment (daily evaluation on the basis of class performance) and Attendance	10 + 10
Mi-term exam / evaluation (assignment submission) and viva-voce	20 + 10
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (accessory display & presentation) and viva-voce	40 + 10

2. CRAFT BASED PRODUCT DEVELOPMENT (Elective)

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- To examine and understand the various constituent parts and process in a micro-environment and their relationships as manifested in socio-cultural, economic, political, religious and aesthetic realities therein through Research and Visual Documentation.
- To create an awareness and appreciate the traditional methodology of a particular craft and also to have a detail study on innovation of form, material, techniques and function. Interaction with facilitators like NGO, entrepreneurs, institutions and artisans.
- To understand the system and structure of the firm this includes survey, manufacturing, marketing and management procedures.
- To maintain checks on quality parameters to give more value addition for existing products and suggestions on diversification.

Learning Outcomes

- To understand and appreciate traditional crafting techniques and emerging alternatives due to market forces and influence of technology.
- To co-relate present design and market trends as well as consumer preferences.
- To understand a comprehensive and integrative mode of research, data compilation and documenting through presentation.
- To understand the logistics of bringing a craft into market focus through value addition and appropriate market

identification.

- To understand and gain experience in creating a collection / line project in diverse / specific craft areas.
- To explore design diversification without losing the essence of the craft.

COURSE CONTENT

UNIT- I Introduction of specific craft in geographical context and study of previous work for the same [5 Hours]

UNIT-II Diagnostic study and survey of artisans ,NGOs , Institutions and other facilitators [9Hours]

UNIT-III Sourcing existing indigenous raw materials and exploring further options in the context of geographical location , products , trends and technological upgradation. [14 Hours]

UNIT-IV Design development and product creation through material manipulation ,Permutation and combinations, Diversification in terms of end use , value addition and surface development Innovation on packaging and presentation and presentation techniques. [16 Hours]

UNIT-V Costing and pricing [12Hours]

Creating public awareness through different media (e.g. participation in exhibition /fairs)
Windening the retail chain and targeting different markets (Domestic / international)

Suggested Assignments

PROJECT-1 Submit a document based on Diagnostic study and research for market Need identification (10 marks)
PROJECT-2 Product development along with packaging and marketing plan – (20 marks)

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Suggested Visits
Craft clusters of different geographic locations .

Evaluation Criteria

Internal	**Marks**
(Based on understanding of concept, knowledge of tools, commands, techniques, creation, ideation, image quality and presentation) (atleast 3 jury members should be there)	
Teachers assessment (daily evaluation on the basis of class performance) and Attendance	10 + 10
Mi-term exam / evaluation (assignment submission) and viva-voce	20 + 10
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (Product display & presentation) and viva-voce	40 + 10

3. CREATIVE PATTERN MAKING (Elective)

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives
- To conceptualize experimental interpretations and explorations of design.
- To innovative conventional precepts of pattern making by radically differentiating apparel styling and detailing by manipulating basic patterns.
- To stimulate development of individual and original design from concept to finished garment.
- Understanding and visualizing design, proportion and styling
- Visual interpretation of existing collections of national and international designers
- Understanding various garment components which form the basis for more contemporary creations
- Understanding unusual patterns and silhouettes and developing advanced interpretive skills of draping and pattern making
- Development of individual styles and processing if from concept to finished garment.
- Developing seamless patterns
- Altering and redefining the shape of the garments by shifting seems, adding or reducing / removing volume.
- Deconstructing existing garment into new styles.

Learning Outcomes
- Visually interpreting any form or structure and conversion of the same into a garment.
- Creating/working out a new shape and then working it out with the 2D or 3D pattern adaptation.

- Altering the shape of the garments to move away from body.
- Re-structuring an existing garment (e.g. taking an old jacket, opening it up and understanding the engineering of the
- Jacket, using the insides of the jacket for a different feel and texture) to create a new garment.
- Unconventional positioning of seams as design details e.g. use of darts
    - To create a different bodice block using unconventional seams and darts
    - To create skirts of different shapes using unconventional seams and darts
    - To create sleeves of unconventional shapes
    - Trousers with unconventional seams
- Inventing innovative garment details such as pocket, fastening, closures, belt, placket etc. in the context of any existing garment. These could be pattern making or construction based.
- Creating unstructured shapes / silhouettes through Origami – based folding and seaming techniques
- Creating an original design inspired by any designer.
- Innovative design elements e.g. collar placket, cuffs, gussets, pleats, sleeves, hems, waist band, etc.
- Patterns inspired through costumes, personalities, drama or cinema
- Creating designs inspired by elements of traditional Indian costumes

COURSE CONTENT

UNIT- I [5 Hours]

- Creative Dart Manipulation
- Godet Method of pattern creation

UNIT-II [9 Hours]

Inspirational Designs

- Crushed Paper inspired
- Geometric shapes inspired
- Architecture inspired
- Origami inspired
- Nature inspired

UNIT-III Innovative Women's wear [14 Hours]

- Innovative Skirts
- Innovative Trousers

- Innovative Sleeve
- Innovative collars

UNIT-IV Innovative Menswear [16 Hours]

- Innovative Shirt styles
- Innovative Trousers
- Innovative Jackets

UNIT-V Final Project [12Hours]

Mandatory Assignments

PROJECT-1 Dart Manipulation inspired garment's Muslin Test fit (any 5)

PROJECT-2 Inspirational Designs inspired garment's Muslin Test fit (any 5)

PROJECT-3 Innovative Women's wear considering unit III (Full garment two piece)

PROJECT-4 Innovative Menswear considering unit IV (Full garment two piece)

Note: The creative work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Suggested Visits

Export house and designing house for Menswear and Women's wear

Evaluation Criteria

Internal	**Marks**
(Based on understanding of concept, knowledge of tools, commands, techniques, creation, ideation, image quality and presentation) (atleast 3 jury members should be there)	
Teachers assessment (daily evaluation on the basis of class performance) and Attendance	10 + 10
Mi-term exam / evaluation (assignment submission) and viva-voce	20 + 10
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (accessory display & presentation) and viva-voce	40 + 10

4. CHILDREN'S WEAR/ MAN'S WEAR (Elective)
A. CHILDREN'S WEAR

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- To understand the overriding concerns of children's apparel in terms of practical considerations, comfort and care
- To understand factors that would be instrumental in reducing time consumption and expense in mass production of the Children wear.
- To understand the anthropometrics of Children wear in terms of the changes in height and body proportions with age.
- To understand concept of ease and fit which would contribute to the comfort of the garment
- To understand to co-relate textile properties like fabric construction, texture and insulation properties to design appropriate for the season

Learning Outcomes

- To apply practical concepts of fabrics selection, ease and fit to design of Children wear.
- To design according to market requirements and categorization with emphasis on practical innovation
- To draft patterns and make toile's according to the chosen age group
- To construct the garment with emphasis on ease and practical, self-help features

like openings, elastic etc.

COURSE CONTENT

UNIT- I [5 Hours]

- Research and Analysis of current fashion trend in Children wear fashion
- Range of Children wear
- Market segments of Children wear
- Innovative design ideas in different categories of Children wear

UNIT-II [9 Hours]

- Measurement method of children wear
  - Basic blocks for kids
    - Infants (0-2 years age)
    - Toddlers (2-6 years age)
    - Preteens (6-12 years age) - boys and girls both

UNIT-III [14 Hours]

- Pattern development for Infents
  - Snow suit with hood
  - Romper
  - Construction of any one infants garment
  - Complete design process with specification sheet .
- Pattern development for boys garments
  - T-shirt with raglan sleeve
  - Jeans
- Pattern development for girls garments
  - Frocks- frock with yoke and petals sleeve, frock with shoulder string, Pinafore / sleeveless dress with shoulder knot, etc. (any one)
  - Skirts- tiered, divided skirt, cascade, etc. (any one)
  - Hot pants

- Construction of any one garment either for boys or girls

UNIT-IV Children Wear- PRETEENS (6-12 year age) [8 Hours]

- Pattern development for boys garments
  - Knee length pants
  - Jacket
- Pattern development for girls garments
  - Empire line dress with flare
  - Construction of any one garment either for boys or girls
  - Complete design process with specification sheet .

UNIT-V [12Hours]

Construction methods of Lining, Interlining, Facing & interfacing and different surface ornamentation techniques for children wear .

Assignments

PROJECT-1 Them based designing of children wear considering unit I, II, III Wit Muslin fit .

PROJECT-2 Them based Construction of any one garment either for boys or girls with Muslin fit .

PROJECT-3 Final garment with styling considering Lining, Interlining, Facing & interfacing and different sleeve style and surface ornamentation techniques for children wear

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Suggested Visits

- Designer's studio
- Local tailoring shops and boutiques
- Garment manufacturing units specialized in children
- Retail shops specialized in children wear

Textbooks

- Metric Pattern cutting for children's wear and babywear by Winifred Aldrich. (4th Edition)

- Pattern Design for Children's Clothes. By Gloria Mortimer-Dunn.
- Pattern Making for Fashion Design.4th Edition by Helen Joseph-Armstrong.

Reference Material

- Bombini
- Trend Forecast
- Apparel

Evaluation Criteria

Internal	**Marks**
(Based on understanding of concept, knowledge of tools, commands, techniques, creation, ideation, image quality and presentation) (atleast 3 jury members should be there)	
Teachers assessment (daily evaluation on the basis of class performance) and Attendance	10 + 10
Mi-term exam / evaluation (assignment submission) and viva-voce	20 + 10
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (display & presentation) and viva-voce	40 + 10

B. MAN'S WEAR

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives
- To understand design concepts in menswear through market survey and analysis as well as research of books, periodicals, Internet etc.

- To understand the fit and cut of menswear and principles of pattern making.
- To conceptualize and implement design process to create a collection reflecting technical competence.
- To explore creative application and appraise quality parameters in garment construction.

Learning Outcomes
- To understand the relationship between close fitted and outer wear garments.
- To make basic jacket slopers along with waistcoats and other fitted garments by flat pattern making techniques
- To develop an original design and make a sample prototype as the final project

COURSE CONTENT

UNIT- I [5 Hours]
- Research and Analysis of current fashion trend in menswear fashion
- Categories of menswear
- Market segments of menswear
- Classic and innovative silhouettes of menswear
- Innovative design ideas in different categories of menswear

UNIT-II [9 Hours]

- Drafting of Shirt block and design variations
- Complete design process with specification sheet .

UNIT-III [14 Hours]

- Drafting of Trouser block and design variations
- Complete design process with specification sheet .

UNIT-IV [16 Hours]

- Drafting of Jacket block and design variations
- Complete design process with specification sheet .

UNIT-V [12Hours]

Construction methods of Lining, Interlining, Facing & interfacing for menswear .

Assignments

PROJECT-1 Muslin fit of Shirt and trouser.
PROJECT-2 Muslin fit of Jacket and trouser .
PROJECT-3 Final garment with styling (Shirt, Trouser and Jacket)

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Textbooks

- Winifred Aldrich – Metric Pattern Cutting for Menswear
- Weber, Mark – Dress Casually for Success for Men
- David Page Coffin – Shirtmaking
- Newtown – Jackets, Coats and Suits from Threads (Taunton Press)
- Kawashima, Masaaki – Fundamentals of Men's fashion Design: a guide to tailored clothes: Fairchild Publications – New York
- Knowles, Lori A. – The practical guide to pattern making for fashion Designers – Fairchild Publications – New York.

Reference Material

- Different menswear fashion magazines.
- Forecasting manuals and websites

- Menswear Brands Analysis

Evaluation Criteria

Internal	**Marks**
(Based on understanding of concept, knowledge of tools, commands, techniques, creation, ideation, image quality and presentation) (atleast 3 jury members should be there)	
Teachers assessment (daily evaluation on the basis of class performance) and Attendance	10 + 10
Mi-term exam / evaluation (assignment submission) and viva-voce	20 + 10
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (display & presentation) and viva-voce	40 + 10

5. CONTEMPORARY ART AND DESIGN (Elective)

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- To initiate students in to the contextual study for the Contemporary Art & Design
- To become aware of the role of contemporary art in generating conceptual framework and design ideas
- Providing an overview of 'Modernism' (the last decade of 20TH Century) and 'Post Modernism'.
- To analyze critically the socio – cultural framework for Design Conceptualization.
- To view Art and Design as the product of 'visual Culture' and to understand it as the expression of a culture by semiotic analysis.

Learning Outcomes

- Awareness of the context of the evolution of art in its multimodal form
- Ability to conceptualize a design scenario & to be able to come up with appropriate design solutions
- Ability to use semiotics as the tool to analyze a work of art and design
- To become aware of the fact that we live in a world where the cultural
- Experiences are dominated by visuals and the codes which they carry which can strongly be used in the context of globalization.

COURSE CONTENT

UNIT- I ANALYSIS OF VISUAL CULTURE [5 Hours]

- Relation between Design and Art
- Cultural difference between Elite culture, Mass culture and Popular culture
- Different types of art and designs

- Theater –performance art, Installation art, Panting art, Digital art
- Fashion and interior design

- Semiotics- the science of signs in visual culture
- Semioticians- An investigation into how meaning is created and communicated
- Use of Sign

UNIT-II **Modern art and issues in modern art after 60's** [9 Hours]

- Abstract expressionism
- Computer art
- Conceptual art
- Fluxus
- Minimalism : Eva Hesse, Donald, Judd, Frank Stella, Robert Morris,
- Lynda Benglis, Richard Serra
- Earth Art: Robert Smithson, Walter de Maria, Richard Long.
- Neo-Dada
- Nouveau Realism
- Op Art
- Performance art
- Pop Art: Robert Arneson, David
- Hockney
- Post-minimalism

UNIT-III **Postmodernism Transition from the 70's** [14 Hours]

- Use of language
- Art as political omment
- Nature & Art
- Technology & Art
- Pluralism : corporate culture of
- America, Art & feminism
- Prominence of photography in painting
- Conceptual Art: Joseph Kosuth, Christo
- Arte Povera
- Bad Painting
- Body Art: Harmann Nitsc. Rebecca
- Horn
- Performance Art: Gilbert & George, Lurie Anderson, Piero Manzoni
- Video Installation: Nam Jum Paik
- Painting: SigmarPolk, John Baidessari

- Pluralism
- Feminism
- Photorealism:Chuck Close,

- Duane Hanson
- Functional Sculpture
- Funk Art
- Pattern and Decoration
- New Images Painting: Susan Rothenberg, Jennifer Bartietto, Anslem Kiefer, Francesco Clement
- Indian Art scene

UNIT-IV **Eighties Till now** [16 Hours]

- Abstraction
- Using the language of media for personal expression
- The aesthetic of consumerism
- Political appropriation
- Abstraction: Tony Cragg, Robert Congo, Jonathan Borofsky
- Graffiti Art: Keith Haring
- Media as personal expression in Art: Cindy Sherman
- The aesthetic of consumerism: Haim Steinbach, Jeff Koons
- Neo-conceptual art
- Neo-expressionism
- Transgressive art
- Political appropriation: Barbara Kruger, Guerrilla Girls
- Indian art scene

UNIT-V **Post Modernity and Design** [12Hours]

- New materials and new products
- 'Good Design' Design ideology
- Visual Identity
- Mass culture
- Pluralism
- Graphic design in a digital age

Assignments

PROJECT-1

Submit a comparative analysis of art and design and whether they are interdependent

or not. Give examples.
***** The submission will be in the form of a document, it will have images, text and a learning diary, with all the information collected so far in the semester will also be submitted. **(marks 10)**

PROJECT-2
Study one contemporary artist and come up with a range of designs with the chosen artist as inspiration.
The design can be prints or surfaces created. Submission will be made in a document format. **(marks 10)**

PROJECT-3
Students should be asked to identify and modify four usable objects from their conventional use. They must be asked to alter the semiotics / meaning in order to change the end use for the objects and document the same. **(marks 10)**

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Evaluation Criteria

Internal	**Marks**
(Based on understanding of concept, knowledge of tools, commands, techniques, creation, ideation, image quality and presentation) (atleast 3 jury members should be there)	
Teachers assessment (daily evaluation on the basis of class performance) and Attendance	10 + 10
Mi-term exam / evaluation (assignment submission) and viva-voce	20 + 10
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (display & presentation) and viva-voce	40 + 10

6. COUTURE DESIGN (Elective)

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- To design and execute couture garments, using the appropriate fabrics and trims for occasions (bridal, eveningwear and other occasional wear).
- To drape / draft patterns to achieve desired style and fit.
- To understand the application of different sewing and finishing techniques used for formal wear / couture

Learning Outcomes

- To understand the evolution of Couture and couture market
- To Develop an original design and develop prototype.
- Analysis and interpretation of innovative design ideas for Haute couture through a design process. (Representation of the essence of theme through visual images and design innovation in appropriate fabric, colors, silhouettes and garment detail).
- To adopt sewing techniques as used in couture and to give an impeccable finish to formal clothing.

COURSE CONTENT

UNIT- I Research work and sourcing [5 Hours]

- Survey of exclusive boutiques/fashion studios for pricing brand positioning.
- History of evolution of couture
- Study of legendary couturiers to analyze and document design aesthetics and exclusive couture techniques
- Sourcing of fabrics, trims, closures, lining, inter Lining as appropriate for high- end clothing

UNIT-II **Design development for specific niche markets** [9 Hours]
(bridal /eveningwear etc.)
Creation of mood board keeping forecast colors and design house or client profile in mind
Development of Specification sheets, design development sheets and illustration

UNIT-III **Pattern making by draping / drafting or combination** [14 Hours]
Test fits on dress forms for spot evaluation by using appropriate fabric.

UNIT-IV **Toile making** [16 Hours]
Components Development and execution of same in toile by using appropriate fabric.

UNIT-V **Final term: Execution of DRESS** [12Hours]
Execution of a DRESS through Appropriate garment Construction and finishing techniques

Suggested Assignments

PROJECT-1 Submission of Research document based on Market survey, Evolution of couture and analysis on legendary couturiers.

PROJECT-2 Final term: Execution of DRESS
Submission of Fitted Prototype of dress on appropriate fabric with patterns.

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Suggested Visits

- Design Studio
- Export houses
- High end boutiques
- Industry
- Market Survey

7. VISUAL MERCHANDISING (Elective)

SEMESTER : **VII**
Duration : 14 Weeks
Work Load

Lecture(L) : 0	Total lecture hours per semester: 0
Tutorial (T) : 1 hour/Week	Total tutorial hours per semester: 14
Practicals(P): 3 hours/Week	Total lab hours per semester: 42

Credits : 3
Maximum marks : 100

Objectives

- To understand the impact of visual merchandising on the customer
- To appreciate display as a basic tool to promote a product image
- To apply knowledge of colours in window display in a manner that will appeal to customers
- To understand elements and principles of layout for a specific displays
- To analyze market trends and formulate merchandising policies

Learning Outcomes

- Be able to appreciate and understand Be able to put together the knowledge of basic elements and principles of design for an attractive display
- Be able to understand the importance of display props, décor and visual merchandising elements
- Be able to use their creative skills for an appealing window display
- Be able to create displays using appropriate props, light and sound for an effective display
- Be able to create new marketing strategy

COURSE CONTENT

UNIT- I INTRODUCTION TO VISUAL MERCHANDISING [6 Hours]

- Concept and terminology of visual merchandising
- Types of visual merchandising
- Display concepts (seasonal, festival etc.)
- Significance of visual merchandising
- Understanding various exhibition and display concepts

UNIT-II BASIC TOOLS FOR VISUAL MERCHANDISING [12 Hours]

- Furniture and fixtures
- Props
- Graphics and signage
- Mannequins etc.

UNIT-III THEORIES OF VISUAL MERCHANDISING [12 Hours]

- Color (color schemes, color stories & color blocking)
- Texture
- Line and composition
- Lights and lighting systems
- Exhibition design with emphasis on stall design in trade fairs

UNIT-IV VISUAL ELEMENTS FOR STORE PLANNING AND DESIGN [14 Hours]

- Store layouts and design
- Fonts
- Photographs

UNIT-V WINDOW DISPLAY AND THEME CHANGES [12 Hours]

- Conceptualization of theme
- Mood Board
- Window display and in store display

PROJECT - 1

Conduct a market survey of window display and prepare a portfolio depicting photographs on various kinds visual displays for apparel / accessories and analyze the following:

- Theme
- Floor plan
- Fixtures and display materials
- Props
- Light and lighting systems
- Color
- Graphics and signage
- Mannequins etc.

Students are expected to visit malls/boutiques/markets/fashion studios/designer's outlet to conduct the same.

PROJECT – 2

The objective is to design a 3D model for a brand based on any thematic scheme after conducting the market survey. The display should be a miniature of actual window display developed and researched by the students

- The entire class will be divided into groups of two
- Each group will select a brand or can create their own brand
- Selection of a theme which inspires or excites
- Preparation of a mood board
- Concept presentation of different kinds of display using hand/computer CAD skill-illustration showing the display in selected space
- Selection of final illustration to be displayed in the form of model
- Sourcing of materials required (prop, furniture, fixtures, mannequins etc)
- 3D model representation of final selected display
- Presentation of the display to a jury

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Guest lecture from an industry expert

Evaluation Criteria

Based on concept understanding, quality of work, exploration, presentation, documentation	
Internal	**Marks**
Teachers assessment (daily evaluation on class performance) and attendance	10 + 10
Midterm exam (assignment/project submissions) and viva (atleast 3 jury members should be there)	20 + 10
External	
Final university examination (portfolio submission and 3D model) and viva (atleast 5 jury members should be there)	40 + 10

8. FASHION STYLING (Elective)

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- Analysis and use of historical and contemporary imagery to develop fashion images that are fresh / innovative reflective of society and an original vision of future trends.
- Train students to develop a 'visual eye' and to 'style' a total look
- It would also encompass a wide spectrum of styling assignments – from revamping a celebrity's 'tired' image / styling and designing a magazine fashion shoot / co-ordinate several aspects pertaining to designer's catwalk collection

Learning Outcomes

Image making is an integral part of our highly visual popular culture. The course investigates the in- depth look at the dynamics of the image – making industry and thereby the many roles of the fashion stylist today. Styling is an important and essential feature in contemporary 'fashionable' society with the potential of dictating the style statement / attitude of a model / a regular person. It surrounds the product / model with images that tell a story. The integral focus is on the creation of a fashion image, be it for the runway, editorial fashion pages, advertising, catalogues or music promos, to inculcate understanding and projecting styling as an attitude, a fantasy, a way of living.

COURSE CONTENT

UNIT- I [5 Hours]

- Introduction
- Understanding Dynamics of the Image making Industry
- Connotations of Modern visual Idioms

UNIT-II [9 Hours]

- Changing cultural Trends
- Various processes for creation of successful & effective image for diverse areas

UNIT-III [14 Hours]

- To understand visual images through visual media in order to understand & deconstruct cultural & urban Diversity

UNIT-IV [16 Hours]

- Fundamentals of cosmetics, make- up, Hair & hair Styling

UNIT-V [12Hours]

- **Final project:**

Students will be given a project brief that will encourage development of creative ideas. These ideas will be explored to produce original and provocative images for an increasingly competitive and diverse market with growing options in fashion communication and media.
The project will incorporate the following aspects:

- Selection of location for an indoor / outdoor shoot
- Creation of a suitable ambience / backdrop for the shoot
- Sourcing and coordination of clothes and accessories according to a theme / season
- Selection of model for communication and presentation of the selected theme. Coordination of movement, mood and image of model and apparel
- Hair & make-up
- Photo shoot in the context of camera, lens, light etc.
- Selection of final photographs

Assignments

PROJECT-1 Case Study of a celebrity

PROJECT-2 Final project described in unit V

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

NFD-752P **Mandatory Elective (Any One)**

1. **Business of fashion luxury**

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- To give an overview of the business of luxury – India & International
- To define the concept of luxury products and consumer.
- To highlight the difference between old and new luxury
- To introduce them to various international luxury brands

Learning Outcomes

- An understanding of the phenomenon of luxury and the socio, economic and cultural aspects associated with it.
- Understanding the psyche and motivations of the Luxe consumer.
- Interrelationship of different facets of the luxe Industry.
- Understanding the creation and positioning of brands.

COURSE CONTENT

UNIT- I Introduction to the concept of Luxury [5 Hours]

- Concept of Luxury
- Luxury products
- High net worth indivuals
- Luxury Segments

UNIT-II Relation between Luxury and Economical development [9 Hours]

- Real versus the imaginary
- Material versus the symbolic
- Social versus the self
- Desire versus satisfaction
- Relationality versus irrelationality
- Materialism versus spiritualism

UNIT-III International and National luxury Market [14 Hours]

- International Trends
- Indian Trends
- Indian Consumer
- Indian Market

UNIT-IV SWOT analysis of Luxury Business [16 Hours]

- Case Study of existing brand

UNIT-V Analytical study of Trading up to new [12Hours]

- List of new luxury Brands
- Brand Creation

Suggested Assignments

PROJECT-1
Make a Presentation on Indian concept of luxury
PROJECT-2
Scrap book and Final document of Brand Creation

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

2. Corporate Designs and fashion industry.

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- Introduce the role of corporate designs in fashion advertising and communication in terms of past, present and futures.
- To conceptualize innovative modes of presentation.
- Types of corporate designs, letterhead, logo, envelop and visiting cards, etc.
- Introduce the graphics and reprographic materials and techniques.

Learning Outcomes

- Upon the completion of the course the students shall be able to
- Demonstrate an understanding of materials, techniques, corporate design – concepts in industry
- Analyze and articulate designs concepts
- Strengthen presentation skill
- Demonstrate a practical understanding of corporate design – fashion industry
-

COURSE CONTENT

UNIT- I Introduction of Corporate Design [6 Hours]
Type of Logo,
Letter Head of Visitor.

UNIT-II Analysis of Existing Corporate Designs [14 Hours]
(example: Leading fashion brand, fashion designer or fashion house)
Company Profile
Historical background

Brand Analysis
Logo history and relevancy of logo

UNIT-III Designing of own brand [20 Hours]
Category of brand (Apparel, Accessory, cosmetic or corporate)
Name own brand or modify existing brand
Mini campaign for selected brand
Business plane for selected brand

UNIT-IV Complete processed based documentation submission [20 Hours]

Suggested Assignments

PROJECT-1 Research on Existing Corporate Designs like History of Logo
PROJECT-2 Final project
Complete processed based documentation submission with Mini campaign for selected brand and Business plane.

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

3. **Fashion Forecast for Indian retail**

SEMESTER : **VII**
Duration : 14 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 1 hour/Week Total tutorial hours per semester : 14
Practicals (P) : 3 hours/Week Total lab hours per semester : 42

Credits : 3
Maximum marks : 100

Objectives

- To understand the relevance of fashion forecast in the Fashion Business
- To understand the prevalence of fashion forecasting in Indian markets
- To comprehend fashion forecasting as a tool to understand consumer behavior in the Indian scenario
- To develop skills to interpret and apply forecasting at various levels in fashion business in India

Learning Outcomes

- To study the growing Indian retail market in the context of fashion business
- To be familiar with various tools of fashion forecasting
- To understand the nuances of Indian fashion

COURSE CONTENT

UNIT- I **Introduction to Retail in Indian Fashion Business** [5 Hours]

- Fashion in the Indian context.
- How does Indian Fashion business understand 'change' in the context of fashion seasons, trends etc.
- Techniques for detecting emerging trends.

UNIT-II **Distribution of consumer group and Fashion Market** [9 Hours]

Consumer group

Psychographic

Demographic

Fashion Market and clothing categories

UNIT-III **Tools of fashion Forecasting** [14 Hours]

- Consume Research and feedback
- Trend Spotting.
- Competitors style and data analysis
- Sales Tracking and Analysis.
- Observation posts.
- Fashion media, publication and websites/blogs.
- New Technology And other influences.

UNIT-IV **Elements of fashion in forecasting in India** [16 Hours]

- Colors
- Fabric
- Styles
- Fit
- Influence of media on markets
- Change in different aspects

e.g.: economical, lifestyle, attitude Etc

UNIT-V **Process of Fashion Forecasting.** [12Hours]

Market study and customer feedback.
Lifestyle study
Reporting
Sales data analysis
Fashion publication analysis
International Trends
Fashion meetings
Shopping
Common denominator Analysis.

Suggested Assignments

PROJECT-1 Psychographic, Demographic and Lifestyle study of one consumer group of anyFashion Retail Brand in India.

PROJECT-2 Brand study and presentation of an International luxury brand

PROJECT-3 Using tools of fashion forecasting, develop a trend observation report for the chosen target consumer group.

PROJECT-4 Using process of fashion forecasting, analyze the trend observation report and develop a design report on forecasted styles, colors, details, prints etc. for the chosen target consumer group.

NFD – 753P: DESIGN AND DEVELOPMENT OF BRIDALWEAR

SEMESTER	:	**VII**
Duration	:	14 Weeks
Work Load		
Lecture (L) : 0	Total lecture hours per semester: 0	
Tutorial (T) : 1 hour/Week	Total tutorial hours per semester: 14	
Practicals (P): 3 hours/Week	Total lab hours per semester: 42	
Credits	:	3
Maximum marks	:	100

Objectives

- To familiarize with the growing Bridalwear market, with special reference to local & international brands
- To understand the different categories of Bridalwear
- To understand the methodology of conducting a market survey viz a viz contemporary design in terms of style details, colors, fabrics, trims, sizes and price
- To understand the usage of appropriate textile materials for development of Bridalwear
- To develop an understanding of developing patterns of Bridalwear
- To acquire construction and finishing techniques of Bridalwear
- To develop the skill for creating an Bridalwear Collection

Learning Outcomes

- Be able to understand the socio-economic-cultural factors that contribute to the expansion in Bridalwear market
- Be able to understand the transformation in Bridalwear from earlier to contemporary times
- Be able to co-relate textile properties like fabric construction, texture and design with garment design
- Be able to design and adapt according to market requirements and latest trends
- Be able to draft patterns and incorporate appropriate construction and finishing techniques for all designs

COURSE CONTENT

AIM

To create a bridalwear after thoroughly understanding the market and the needs of customers. It should be a mini collection of four or five complete outfits based upon a theme developed and researched by the group.

BRIEF

The objective is to explore and develop a range of Bridalwear based on the following:

- Research on trends in the past and present scenario, textile materials, embellishments, construction and finishing details etc.
- Selection of a theme which inspires or excites
- Preparation of a story board
- Formulation of specification sheet
- Final Illustrations
- Development of paper patterns
- Sourcing of materials required
- Construction and finishing of garments
- Presentation of final ensemble to jury

METHODOLOGY

- The class will be divided into groups of four to five students. They will interact and support each other in the investigative research in the market, library and the forecast. At the end a common theme should emerge.
- Each individual student designs a range around the theme
- The group will also create a brand name. Each student will create a logo for the

brand name, color palette and a fabric story. The group will create a story board based on the theme that should comprise of visual references.

- Each student will sketch and develop a wide range of ideas ensuring that silhouettes and design details are suitable for Bridalwear. Also ensure that while designing separate equal attention is given to tops and bottoms.
- The range must consist of a number of garments which can be put together to form a mini collection of four to five outfits.
- All garments must be illustrated as accurate working/specification sheets.
- A complete labeled paper pattern for the same needs to be developed with all instructions and symbols etc. mentioned
- Each student in a group is expected to make one garment.
- During the final presentation to the jury the complete outfit (prepared by all the group members) should be displayed along with the suitable accessories.

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII)

Evaluation Criteria

Internal	**Marks**
Teachers Assessment (daily evaluation of class performance) and Attendance	10 + 10
Assignment (evaluation based on research, extent of exploration, material sourcing, illustrations, quality of paper patterns and test fits) and viva voce (atleast 3 jury members should be there)	20 + 10
External	
Evaluation by internal and external jury (atleast 5 jury members should be there)	
Portfolio, draping and presentation	40 + 10

NFD - 754P: INTEGRATED DESIGN PROJECT-V (SPORTSWEAR / INSTITUTIONALWEAR)

SEMESTER	:	**VII**
Duration	:	14 Weeks
Work Load		
Lecture (L) : 0 hours/Week	Total lecture hours per semester: 0	
Tutorial (T): 0 hour/Week	Total tutorial hours per semester: 0	
Practical (P): 6 hours/Week	Total lab hours per semester: 84	
Credits	:	4
Maximum Marks	:	150

Context of the Project

The integrated design project should incorporate and integrate the understanding of basic design, elements of design, design process, fashion illustration, pattern making, garments construction, draping and surface ornamentation thereby creating a meaningful correlation and application within the context of fashion. This is done by attempting to evolve an aspired image and then creating a garment, which represents the image for a target customer.

The project will concentrate on encouraging a mature and self-motivated approach towards the final product and completion of work on a creative, original and technically sound either a sportswear or institutionalwear.

Having gained proficiency in earlier skills, the students have also been given more advanced and specific inputs on:

XIII. **Design Philosophy**

- Concept development
- Design and development of Bridalwear
- Accessories design & development

XIV. **Skills Acquired**

- Visual Merchandising

XV. **Knowledge Gained**

- World Textiles
- Consumer behaviour & fashion marketing

- Environmental concerns and sustainability

XVI. **Product Development**

- Internship

Project Methodology

Based on all the above inputs received during all the seven semesters, two students are required to work together to conceptualize and develop a mini collection of three sportswear / institutionalwear outfits. An element of fabric ornamentation to be suitably introduced.

The collection should be based on the criteria of:

- Season
- Categories
- Target market
- Customer profile / psychographics (age group, income, attitude etc.)

The students are also required to accessorize the collection to achieve a complete look.

Note: The art work and photographs have to be preserved and digitized for compilation towards the development of the Art Portfolio (Semester VIII).

Learning Outcome

- Be able to plan and produce a sportswear / institutionalwear collection that demonstrates expertise in all methods of construction and knowledge of technical data for structural components, stitch methods, pressing, finishing and presentation
- Be able to evaluate, analyze and summarize the collection through appropriate styling and accessories.
- Develop an ability to produce a two-dimensional portfolio of work that projects the collection theme and exhibits the evolution of the theme and finalization of the product design and developing of sportswear or institutionalwear

Evaluation Criteria

Assignment (portfolio and garments) submission and viva-voce	40 + 10
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (portfolio, garments and presentation) and viva-voce	60 + 15

NFD-755P: INTERNSHIP
(Between VI-VII semester summer break)

SEMESTER : **VII**
Duration : 8 Weeks

Work Load
Lecture (L) : 0 hour/Week Total lecture hours per semester : 0
Tutorial (T) : 0 hour/Week Total tutorial hours per semester: 0
Practicals (P) : 6 hours/Day Total practical hours per semester: 240

Credits : 4
Maximum marks: 200

Objectives
- To appreciate the different aspects of the fashion and apparel industry
- To learn the functioning of the industry and be able to work on a project assigned by the industry
- To study the current trends in the market, interpret the same to create own concepts

Learning Outcomes
- Be able to develop the skills to analyze the company profile
- Be able to compile the collected data of the company for presentation in the form of a document
- Be able to create a collection based on the project by following the design process

INTERNSHIP BRIEF FOR THE STUDENTS

Unit I DESIGNING
- Components of a Business Oriented Collection
- Factors Contributing to a Commercial Collection
- Interpretation of Key Forecast
- Decision Making On Colours
- Trade Sketching
- Design Development Sheets
- Range Planning as a Synthesis Of Creativity & Utility
- Criteria for Mass Production / Prêt

Unit II SOURCING

- Methods of Sourcing
- Vendors – Terms, Conditions & Policies
- Fabrics
- Processing & Printing
- Trims & Closures / Accessories

Unit III FABRICS

- Different Types of Fabrics – Developments & Production
- Different Types of Printing, Sampling & Production
- Different Types of Dyestuff & Applications

Unit IV SAMPLING

- Process
- Planning
- Selection & Managing Workforce
- Interaction, Communication & Coordination
- Pattern Making
- Cutting
- Quality Measures
- Fit
- Grading
- Finishing & Packing

Unit V OTHERS

- Background of the Organization
- Marketing Policies & Production
- Quality Assurance & Control
- Export Formalities & Shipping
- Overview of Export Potential

INTERNSHIP BRIEF FOR THE EDUCATIONAL INSTITUTE

- To have a continuous interaction with the industry by way of students visits, special lectures by industry experts and industry sponsored projects
- To create a database of the industries willing to support student internships
- To dedicate a faculty member to coordinate and facilitate student, internships from identifiable industries to follow up during training and till the final presentations
- To allocate the industry unit for training to the students keeping in mind their

preference and suitability

- To request the manager to nominate a mentor to oversee and co-ordinate the training program of the student

Suggested Visits

- Sourcing hubs for fabric, trims and accessories etc.

MENTOR - EVALUATION SHEET

S. N	Name of The company	Name Of students	E V A L U A T I O N		
			Report Document 50	Professional Conduct 50	Total marks 100

NFD-801: ENTREPRENEURSHIP MANAGEMENT WITH PROJECT

SEMESTER : **VIII**
Duration : 14 Weeks
Work Load
Lecture (L) : 2 hours/Week Total lecture hours per semester: 28
Tutorial (T) : 1 hour/Week Total tutorial hours per semester: 14
Practical's (P): 0 hours/Week Total lab hours per semester: 0
Credits : 3
Maximum marks : 100

Objectives:

- To understand the concepts of entrepreneurship
- To know about the different types and kinds of entrepreneurship
- To inculcate knowledge about different barriers of entrepreneurship
- To gain knowledge about methods of identifying and selecting entrepreneurial ideas
- To acquire financial management skills
- To gain knowledge about steps involved in developing a project proposal

Learning Outcomes:

- Understand the meaning and concept of entrepreneurship development
- Develop appreciation for entrepreneurship as a career
- Develop the ability to identify and plan a project proposal
- Develop skills in launching and managing an enterprise
- Be able to understand the nuances of financial management

COURSE CONTENT

UNIT-I INTRODUCTION TO ENTREPRENEURSHIP [10 Hours]

- Concept
- Need and significance
- Classification of entrepreneur
- Types of enterprises classification based on capital, product and ownership
- Estimation and mobilization of resources
- Challenges
- Barriers

UNIT-II ENTREPRENEURIAL MOTIVATION AND IDEAS

- Meaning of Achievement motivation [8 Hours]
- Motivating factors: Internal and External
- Creativity and idea generation
- Selection of entrepreneurial ideas

UNIT-III ENTERPRISE MANAGEMENT [10 Hours]

- Managing Production
- Managing marketing
- Financial management

UNIT-IV ENTERPRISE NETWORKING [6 Hours]

- Enterprise resource planning- concept, dynamics and methods
- Role of institutions- CII, KVIC, NIESBUD, FICCI and NGOs

UNIT-V PROJECT PROPOSAL [8 Hours]

- SWOT analysis
- Format
- Content
- Steps in its preparation
- Project feasibility analysis

Suggested Assignments

- SWOT analysis with respect to entrepreneurial competencies
- Case profiling of successful entrepreneurs and enterprises
- Preparation of business plan

Suggested Visits

- Visit to self-employed boutique owner or designer
- Local export houses
- Craft bazaar

Guest Lectures

- Experts from an organization working for young entrepreneurer such as NIESBUD, KVIC, FICCI, EDII, etc.

Evaluation Criteria

Internal	**Marks**
Teachers assessment (on the basis of assignment / presentation) and attendance	10 + 10
Mid-term exam / project evaluation	20
External	
Final University Examination	60

NFD – 852P: DESIGN COLLECTION

SEMESTER	:	VIII
Duration	:	14 Weeks
Work Load		
Lecture(L) : 0 hour/Week		Total lecture hours per semester: 0
Tutorial (T) : 0 hour/Week		Total tutorial hours per semester: 0
Practicals(P): 15 hours/Week		Total lab hours per semester: 210
Credits	:	18
Maximum Marks	:	850

Objectives

- To produce an innovative and appropriate portfolio which emphasizes an original yet commercially realistic approach to the collection
- To source an innovative range of appropriate fabrics and trimmings
- To analyze and evaluate a range of design concepts from basic blocks into accurate production patterns and toiled prototypes, showing technical expertise in construction and in aesthetic interpretation and evaluation of two dimensional concepts into three dimensional and visually appealing
- To apply effective time management and plan individual schedules for the production and completion of work and demonstrate the ability to evaluate, analyze and verbally summarize the value of design and technical work against self-determined criteria

Learning Outcomes

- Be able to demonstrate an ability to research, analyze, appraise and synthesize appropriate contextual information related to one's design collection
- Be able to identify and communicate clear aims and objectives related to the client and user requirements for the proposed design collection through production of a well conceived and structured working brief
- Be able to demonstrate the ability to follow the design process to develop a design collection showcasing one's design capabilities and prowess most effectively
- Be able to demonstrate an ability to evaluate and assimilate research findings into a well structured and professionally presented design collection befitting the client requirements

COURSE CONTENT

BRIEF

The design collection is the final result of assimilation of all the inputs received during the preceding semesters. It is a creative presentation of the students design capabilities coupled with technical skills. It is an opportunity to realize design potential within the parameter of a time-frame by dedicated research, development and execution of a small, commercial or conceptual collection. This is to be supported by evidence of research, analysis, ideation, conceptualization, effective sourcing, finishing and critical presentation of the theme.

The collection should preferably be targeted towards a specific season, customer profile and price range. It is expected that the students will pursue necessary steps in their design process and its evolution. It should be an independent endeavor of the student with necessary support from the industry and the institute by way of sponsorship and encouragement.

Toiles should be constructed with a high level of insight and understanding of technical specification requirements, showcasing skills in problem identification and solving. Emphasis should be laid on style interpretation and decision making in all aspects of toile making i.e. silhouette, line and proportion, detail and fitting.

Each student's work should concentrate on encouraging a mature and self-motivated approach towards the production of a creative and technically sound fashion collection.

METHODOLOGY

- Each individual student will develop a full range of 5-8 garments for their final design collection. Each collection should ideally have a target market and could be visualized for a specific occasion from any one of the categories –party wear, clubwear, sportswear, beachwear/resortwear, uniform, casualwear, formalwear etc. for men or women or kidswear with presentation, promotional planning and execution. Ensembles should be suitably accessorized.
- The students will follow the complete design process of research, concept development, sourcing, prototype development, finishing, accessorizing and presentation.
- Each student will first select an inspiration from themes like festivals, photographs / paintings, ideology (royalty / mughal / fine living / contemporary lifestyle etc.), emotion (anger / joy / frustration / companionship etc.), current events, architecture or any other. Both the inspiration and the context need not be restrictive since the theme provides for a wide scope ranging from the historical, contemporary to futuristic interpretations and adaptations.
- They will then conduct indepth research on their selected inspiration and then develop their concept for the collection. The research should have a focus in an

aesthetic, technical, visual, marketing or historical point of view and must demonstrate, the integration of knowledge with aspects of the course.

- Based on the theme, research, analysis and concept, the students will then develop their mood board – two or three dimensional and color board.
- Next they will develop their fabric board / swatch board with different and appropriate textures, colors, drapability / weight, transparency etc. They can also explore with various fabric development techniques for their fabrics.
- The students will then develop sketches for garments for their collection (15 – 20).
- Thereafter they will explore sampling of various seams / finishes / embroideries and other fabric / surface developments for their range of garments
- Based on the theme and their fabric and sampling explorations, the students will source appropriate material for their collection.
- Next, develop paper patterns and toile prototypes for the selected garments with proper labeling, instructions and symbols etc. mentioned.
- Thereafter, they will develop their final finished garments. Attempt a good fit with a clean finish for an impeccable design quality.
- All garments must be illustrated as accurate working/specification sheets.
- The students are also required to work out a promotional planning strategy for their collection.
- Professional photo shoot of each student's collection to be organized
- At the end of the project, the students will present the complete ensemble with their portfolio of design research and development work. Also submit the technical file and market research report.
- Final collection of garments to be displayed in a fashion show or well arranged static display which would include
  - Art portfolio
  - Research process
  - Design evolution
  - Sourcing
  - Accessories etc.

Institutional Support

- Strong technical staff support to be provided by the institute
- Juniors should be attached to the seniors in their final collection work so that they get opportunity to learn and seniors get some support but done with prior briefing what line of work.
- Practice of redoing should be encouraged to get perfection

Lab. Assistants and tutors should not give contradictory information to the students

Evaluation Criteria

Internal	**Marks**
Teachers assessment on the basis of the conceptualization (choice of themes, inspiration and interpretation), Creativity (color composition, styling and silhouettes, proportions and handling of fabrics and embellishments), Wear-ability, overall impact including accessorisation and stage presence) and attendance (atleast 3 jury members should be there)	100+50
Mid-term evaluation (progress of work) and viva	200+50
External	
Evaluation by internal / external jury (atleast 5 jury members should be there)	
Assignment (Portfolio Display and presentation) and viva-voce	350+100
