The pattern colour must change for different colour ways. Include at least one scanned fabric using masking technique.
- This is a capstone project, incorporating all the techniques and concepts discussed and executed throughout the semester. Students will choose a target market, and conduct brief research on the selected market, ideate design concepts, sketch by hand & CAD, and complete presentation boards. Students will be asked to decide your own target market and design a line of clothes (at least 5 outfits). Hand in the boards and any electronic files you make for the project on the CD. **This project will be executed and presented in three parts:**
  - Concepts or Mood Page: The mood or theme of the collection by visually telling the story through inspiration images, colour story, fabric swatches, etc.
  - Illustrations: Sketches of designs in different poses.
  - Technical Flat Sketches: A front and back flat view of each design in 3 colour ways, providing technical information about the garments.

Note: 1. This must be completed using Adobe Illustrator and Photoshop.

Unit	Topics	Lectures
I	**DESIGN** Retail chain stores for both men's and women's apparel: Sportswear/ casual wear: Brands – Reebok, Adidas, Nike, Puma etc.; Product categories – jeans, t-shirts, casual shirts, trousers, shorts. Study the above in terms of design features, colours, fabrics, design composition, embellishments, cost etc. Indian wear- study in terms of styles, fabrics, colours, embellishments, cost etc.	8
II	**FABRICS:** Menswear, Womenswear, Kid swear. Sleepwear. Study the above in terms of composition, colour, design and cost	8

The students are required to maintain a field diary although the duration of the course, recording every detail and information observed and experienced during the course of the survey. The collected information should be documented through visuals, samples, comparative studies and analysis of the conducted survey.

BBFD357	INTEGRATED DESIGN PROJECT-I	0L:1T:3P	4 CREDITS

During the first three semesters the students have been exposed to various fundamentals of design and have therefore acquired the ability to integrate the learning to be able to conceptualize an idea and have the confidence to interpret the same into a product based on their personal design philosophy. The students have received inputs through various subjects like:

Unit	Topics	Lectures
I	**Design Philosophy** – Concept Development: Computer applications – I, II and III. Craft appreciation. Material studies – I and II. Elements of design. Fashion model drawing. Communicating fashion. Design process. Dyeing and printing.	
II	**Skills Acquired**: Basic drawing. Material studies – I and II. Computer applications – I, II and III. Environmental Studies. Research skills for design. Fashion model drawing. Textile analysis. Fundamentals of photography. Design process. Fashion illustration – I. Patternmaking – I. Construction techniques. Dyeing and printing. Advanced photography.	8
III	**Knowledge Gained**: Introduction to apparel and textile industry. Cultural studies. Computer applications – I, II and III. Research skills for design. Environmental studies. Textiles – I and II. History of art and art appreciation – Indian and Western. History of costumes – India and World. Introduction to fashion. Textile analysis. Communicating fashion. Fundamentals of photography. Traditional Indian textiles.	8
IV	**Product Development**: Computer applications – I, II and III. Material studies – I and II. Fashion model drawing. Design process. Fashion illustration – I. Patternmaking –I. Construction techniques. Dyeing and printing	8

Based on all the above inputs received during Semesters – I, II and III, each student has to work on an Integrated Design Project. Each student has to design and develop a womenswear ensemble (skirt and top, A-line dress etc.) based on his or her design philosophy, for a well-

defined customer profile. The only limitation would be the use of cotton or c o t t o n -like

fabrics. Techniques of fabric development (weaving, macramé, crochet etc.) and / or fabric enhancement (dyeing and printing) have to be used to create an exclusive style. The student also needs to accessorize the ensemble to achieve a complete look.

BBFD457	INTEGRATED DESIGN PROJECT-II	0L: 1T: 3P	2 Credits

Having learnt some more and gained proficiency in earlier skills, the students have also been given more advanced and specific inputs on:

Unit	Topics	Lectures
I	**Design Philosophy** –Concept Development: Fabric ornamentation. Introduction to draping.	8
II	**Skills Acquired**: Fashion illustration – II. Fabric studies. Patternmaking – II. Garment construction – I. Fabric ornamentation. Introduction to draping.	8
III	**Knowledge Gained**: Textiles – III (Fabric research and sourcing). Contemporary art appreciation. Contemporary fashion studies. Fabric studies. Introduction to draping.	8
IV	**Product Development**: Fabric studies. Garment construction – I. Fashion illustration – I. Patternmaking –II. Introduction to draping.	8

Based on all the above inputs received during all the four semesters, two students are required to work together to conceptualize and develop a mini collection of four garments with each one developing two garments. The collection must be targeted towards a particular lifestyle customer. Some elements of traditional textiles, history of Indian and world costumes as well as fabric ornamentation is to be applied depending upon the customer profile, style and occasion. The students are also required to accessorize the collection to achieve a complete look.
